Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Prosecution on the merits of this application is reopened on claims 12, 14-19, 34-39, 67, 69-79, and 93-161 considered unpatentable for the reasons indicated below:

Claim Objections

2. **Claim 12** is objected to because of the following informalities: It appears that the word "if" as been omitted in line 15 of the claim. It appears that the limitation should read as "a plurality of first processors". Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. **Claims 12, 34, 67, 74, 121, 138, and 155**, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per **claims 12, 34, and 67**, the limitation "each card containing an electronic memory, a plurality of homes, a store and a routing system" as recited is vague and indefinite. It is unclear to the Examiner if the card contains an electronic memory, a plurality of homes, a store, and a routing system or if the card only contains electronic money. Appropriate correction is required.

As per **claims 12 and 34**, the limitation "generating network addresses in response to an internetwork address" as recited is vague and indefinite. It is unclear to the Examiner what the Applicant means by "in response to an internetwork address". Where was the internetwork address before it was received?

As per **claims 12, 34 and 67**, the limitations "corresponding to a product", "corresponding to a respective computer", and "corresponding to a second computer" as recited is vague and indefinite. It is unclear to the Examiner what the Applicant means by "corresponding". Appropriate correction is required.

As per **claims 12 and 67**, the limitation "wherein the second computer includes circuitry for receiving first signals" as recited is vague and indefinite. It is unclear to the Examiner if the first signals received are the same as the first signals that were sent in line 8 of the claim 12 and line 9 of claim 67.

As per **claims 34 and 67**, the limitation "each first signal including a signal corresponding to a product, and an internetwork address" as recited is vague and indefinite. It is unclear to the Examiner whether the first signal includes an internetwork address or if the internetwork address is meant to only correspond to the second computer. Appropriate correction is required.

As per **claim 34**, the limitation "sending, responsive to the signal received in the previous step" as recited is vague and indefinite. It is unclear to the Examiner to which previous step the Applicant is referring. Appropriate correction is required.

Art Unit: 3639

As per **claim 34**, the limitation “sending, responsive to the signal received in the previous step” as recited is vague and indefinite. It is unclear to the Examiner to which signal the Applicant is referring. Appropriate correction is required.

As per **claim 34**, the limitation “moving the portable card to the store” as recited is vague and indefinite. It is unclear to the Examiner who moves the card to the store.

As per **claims 67 and 74**, the limitation “corresponding to a respective portion of a signal path” as recited is vague and indefinite. It is unclear to the Examiner what the Applicant means by “corresponding”. Appropriate correction is required.

As per **claims 121, 138 and 155**, the limitation “corresponding to a product” as recited is vague and indefinite. It is unclear to the Examiner what the Applicant means by “corresponding”. Appropriate correction is required.

As per **claim 67**, the limitation “responsive to a signal corresponding to a product, from a first signal received by the second computer” as recited is vague and indefinite. It is unclear to the Examiner if the first signals received by the second computer are the same as the first signals in line 14 of claim 67. Appropriate correction is required.

Conclusion

5. Applicant is invited to call the Examiner, to schedule a telephone interview after consideration of the Office Action.

Art Unit: 3639
